

My name is Latonia Green, and I am the founder of SpED Solutions Uncomplicated. With over 20 years of executive leadership experience in special education, I have supported large school districts, charter networks, and school leadership teams in navigating the complex requirements of IDEA and Section 504.

From ensuring that procedures are compliant and implemented with fidelity, to training leaders on the "look fors" in evaluating specialized instruction, to guiding teams through matters of dispute resolution, including state complaints and due process initiation, we bring clarity and solutions where they are needed most. We also provide end-to-end support for charter schools, from writing renewal applications to preparing for sponsor presentations.

What We Do:

- Programmatic Reviews and Internal Audits of District Systems and Frameworks
- Guidance in Navigating State Complaints and Due Process Resolutions
- Leadership Training and Coaching for School Leaders
- Professional Development for Compliance and Instructional Staff
- Charter Renewal Development and Support
- Private School Support

Let's schedule a time to discuss how SpED Solutions Uncomplicated can partner with your district to achieve compliance, clarity, and better outcomes for your special population of learners.
